MAILTHENTIC

Email Verification Pricing Guide

Official published pricing | Checked 22 November 2026

Clear, flexible pricing for email verification and list cleaning. Start with 250 free verification credits, subscribe for recurring monthly allowances, or buy non-expiring pay-as-you-go credits. All prices below are in USD.

Monthly subscriptions

Plan	Verifications / month	Price / month	Max emails / upload
Starter	10,000	$9.99	2,500
Growth	30,000	$19.99	7,500
Business	50,000	$29.99	10,000
Pro	100,000	$49.99	15,000
Scale	250,000	$99.99	25,000
Agency	500,000	$179.99	25,000
Enterprise	1,000,000	$299.99	25,000

Monthly quotas reset each billing period. Unused subscription quota does not roll over. Subscriptions may be canceled at any time.

Annual subscriptions

Plan	Verifications / month	Price / year	Max emails / upload
Starter	10,000	$99.00	2,500
Growth	30,000	$199.00	7,500
Business	50,000	$299.00	10,000
Pro	100,000	$499.00	15,000
Scale	250,000	$999.00	25,000
Agency	500,000	$1,799.00	25,000
Enterprise	1,000,000	$2,999.00	25,000

Annual subscriptions are billed once each year. The listed monthly verification allowance is credited monthly for 12 months and resets each period. The pricing page advertises approximately 17% savings compared with monthly billing.

Pay as you go

One-time credit packs - no recurring charge

Credit pack	Verification credits	One-time price
Starter	2,000	$9.00
Growth	5,000	$19.00
Business	10,000	$29.00
Scale	25,000	$59.00
Scale Plus	50,000	$99.00
Bulk	100,000	$169.00
Bulk Plus	250,000	$349.00
Enterprise	500,000	$599.00
Enterprise Plus	1,000,000	$999.00

20% off your first PAYG purchase

Mailthentic advertises an automatic 20% discount at checkout on the first eligible pay-as-you-go credit pack. The table lists the standard published prices before that discount.

PAYG conditions

Pay-as-you-go credits never expire. There is no recurring charge, and the maximum upload size for PAYG is 2,500 email addresses per upload.

Free signup allowance

Eligible new accounts receive 250 free verification credits without a credit card. These credits are valid for 100 days. Free bulk uploads are limited to 100 addresses per job, with up to 100 SMTP checks; thereafter free verifications use DNS-level checks.

How billing works

One verification checks one email address. Duplicate entries are removed before billing. Verification uses multiple checks, and SMTP recipient confirmation depends on what the receiving mail server permits. An accepted or catch-all response is not a guarantee of an individual deliverable mailbox.

Plan features & terms

What customers should know before choosing a plan

Capability	Published scope
Layered email verification	Syntax, DNS, MX, SPF, DKIM, DMARC, disposable-domain checks; SMTP recipient and catch-all checks where possible.
Bulk list cleaning	CSV uploads with automatic deduplication, progress tracking and segmented exports.
Verification API	Asynchronous verification jobs and result polling; requires an active monthly or annual subscription.
CRM integrations	Available on paid plans for supported CRM connections; check provider-specific availability.
Results and exports	Status-based filtering and CSV or Excel exports for cleaned lists.
Data handling	Encrypted data in transit and at rest; no emails sent to list recipients as part of verification.

Choosing your plan

Subscriptions: For recurring verification volumes, select a monthly or annual tier that fits your expected allowance and per-upload limits.
Pay as you go: For occasional list cleaning, purchase non-expiring credits at a one-time price.
Custom needs: Contact Mailthentic for volumes beyond the published tiers, invoicing or custom integrations.
