CareCloud

central

PRACTICE MANAGEMENT MADE (*REALLY*) EASY.

Drive practice performance with an award-winning modern, intuitive, and powerful solution.

We know how challenging it is to run a practice that is not only profitable, but provides the best care for your patients. Unfortunately, while you're working hard to achieve this, your overhead is increasing. Complex reporting requirements are tricky to navigate, and knowing how to be profitable is no longer obvious. The complexity means claims, and money, slips through the cracks - never to be collected. Let CareCloud Central help you improve every financial and operational workflow, save time, and collect more, faster.

Enhance Efficiency

Central boosts staff efficiency by automating daily actions and streamlining workflows to complete tasks in record time. Its modern, intuitive user interface takes the complexity out of learning and using it. And easy-to-use reporting makes taking the right action easier than ever.

Increase Revenue

Automatic insurance eligibility checks, auto-populated fields, and real-time error alerts are some of the intelligent functionality built-in to Central that results in a 97% composite resolution rate. In addition, optimized scheduling rules and appointment reminders reduce no-shows.

Optimize Decision-Making

Advanced real-time analytics puts financial and operational data at your fingertips. With dozens of ready-made reports and an intuitive builder for customized analysis, you'll get answers fast so you can respond fast. Beautiful charts lets you visualize hundreds of key metrics instantly too.

"Until we switched to CareCloud, we did not know how life could be so much easier...everyone finds CareCloud very user friendly. We are now saving over two and a half hours each day thanks to all the automation and efficiencies, and no longer need any overtime."

-Dr. Alvior, Alvior Medical Clinic

97% REVENUE REALIZATION RATE

12.5 HOURS SAVED PER WEEK

KEY FEATURES

☑ Every Workflow Covered

Full suite of integrated practice management applications across administrative (e.g., scheduling), financial (e.g., claims, billing, collections), and analytic needs

☑ Get Paid More, Faster

Apply over 180m+ billing rules to your claims before posting and minimize denials with the optional CollectiveIQ booster

☑ Seamless Integration with EHR and PXM

Central is one part of CareCloud's cloud-based platform alongside Charts EHR and Breeze patient experience management

☑ Automation to Drive Efficiency

Batch eligibility checking, auto-populated fields, built-in code lookups, one-click check-in, automated claims submission, real-time reporting dashboard, and much more save staff time at every step

☑ Personal, Friendly Help

Supported by a team of expert client managers and US-based technical support to get the most out of all of Central's features

☑ Available Anytime, Anywhere

Access Central from any web browser, on PCs or Macs, without any on-premise servers or risky proprietary hosted infrastructure

ENSURING A SMOOTH TRANSITION

Moving to CareCloud unlocks a number of opportunities to improve practice performance, from the moment your dedicated implementation specialist team is assigned, through the world-class data migration process, and the continued personal support at go-live and beyond.

At CareCloud we understand the value and importance of your data, and how critical it is for your practice and the care you provide. However, we see data migration as an opportunity: to fix bad data, to merge patients into a master patient index, and to structure it in a way that unlocks the full value of your investment.

The #1 Platform to Grow Your Practice

CareCloud Central is part of CareCloud's award-winning cloud-based platform that covers practice needs from payers to patients, and everything in between
