Testimonials What People Say

The intuitive nature of Dante's training management software has made it possible for us to manage the vast amounts of data involved in our day to day, nationwide training operation. Since implementing seven years ago, our organisation has continued to grow at a rapid rate.

The scalability of the system allows our business to expand with minimal additional administration resources.

FAQ

- [Do you charge a fee per course or delegate? ▲](#)

No. We never charge any fees based on the number of courses, delegates or bookings you manage using our software. On both of our plans, you can manage unlimited courses, delegates, schedules and trainers, as well as access unlimited templates – so you can grow your business without limitations.
