## OUR CLIENTS SAY

<p>This class was really terrific. I have already done a little work with Power BI, but I learned a ton. They tailored it to all levels. Honestly, probably the best online class I have ever had.</p> <p>— Shelly S. Power Platform in your PJs attendee</p>	<p>Excellent course and great instructor. Helped me understand the more advanced concepts. The examples can be applied at work immediately which is key to showing management the value of these courses.</p> <p>— David H. Advanced DAX student</p>
<p>The instructor for this course was so easy to follow and understand. I found the content to be well organized and well-focused on the point. It should be used as a model for other courses. I watched every minute of it, and I am a 20-year veteran of on-prem SQL.</p> <p>— Perry C. Intro to SQL Database student</p>	<p>Overall, I love the virtual conference that was put together. The speakers prove they are experts in their related subjects. I learned many things; from fine-tuning my skills to stuff I never would have considered or thought of.</p> <p>— Gene M. Power Platform Virtual Conference attendee</p>
