Certified Citrix Partner Providing End-to-end Desktop as a Service

Ace Cloud Hosting provides customizable Desktop as a Service (DaaS) solutions to meet the specific needs of your business. Our DaaS services are supported by our partnerships with SSAE-16 Tier 4+ and Tier-5 data centers located across the US in Phoenix, Chicago, Dallas, Houston, Tahoe, Reno, and Las Vegas, as well as additional data centers in India and Singapore for high-speed virtual desktops.

As a Citrix partner and Managed Cloud Service Provider (CSP), we offer a comprehensive solution to meet all your virtual desktop requirements and provide a competitive edge over others.

Why Choose Ace Cloud Hosting as your Hosted Virtual Desktop Provider?

30-Day Backup

The data from all desktops are stored daily on our cloud for 30 days rolling, with the backup taken automatically

99.99% Uptime

We ensure seamless desktop and application delivery on your endpoint devices with a 99.99% uptime guarantee

BYOD-friendly

Choose a secure virtual desktop that's compatible with the Bring Your Own Device (BYOD) business model

Superior Graphics

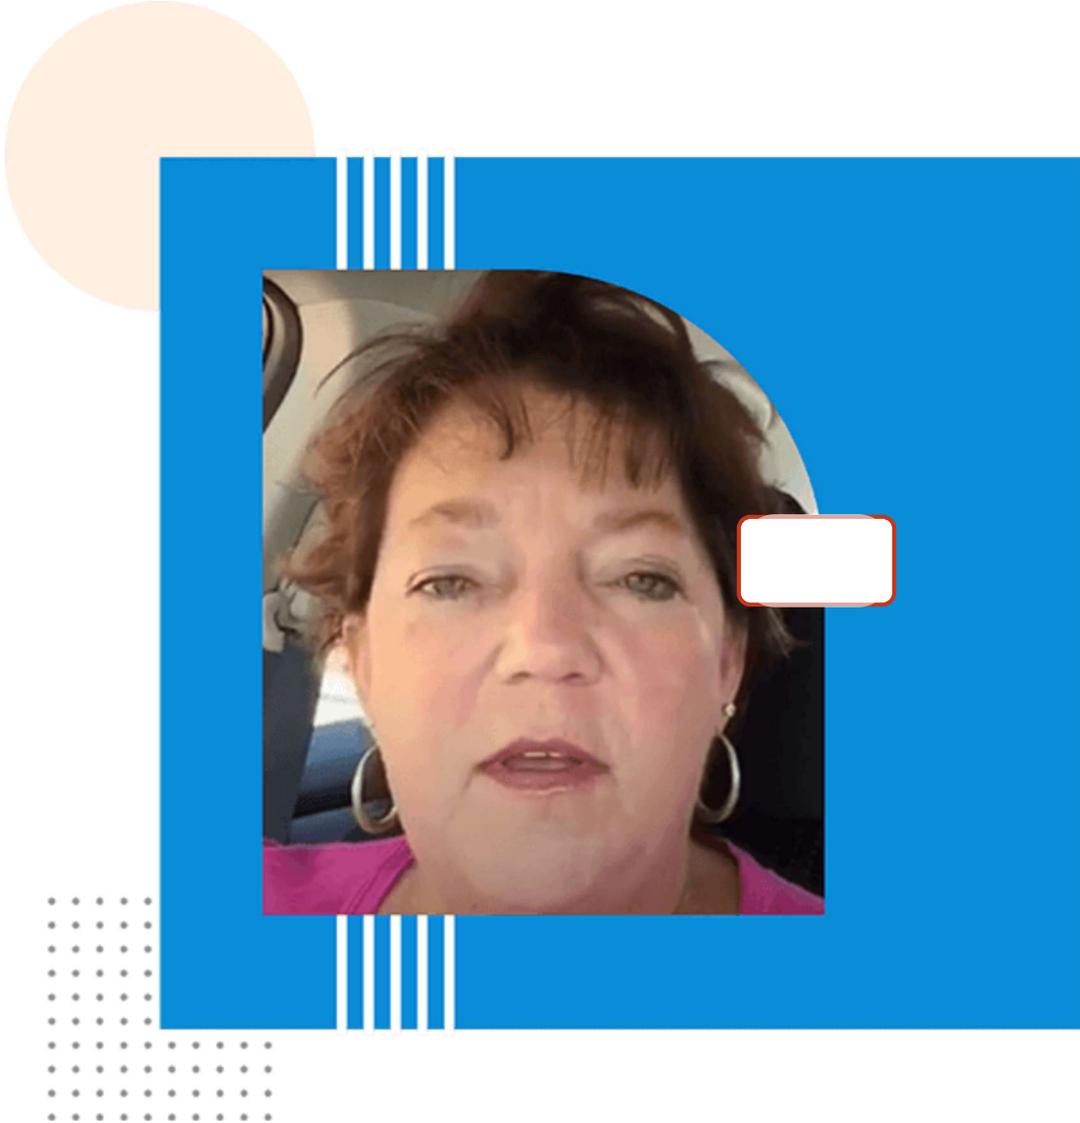

Efficient Data Centers

Tier 4+/5 data centers situated in different geographical locations offer you multi-layered redundancy

24x7 Monitoring

Continuous monitoring towards unwanted traffic, hacking activities and Brute force protection

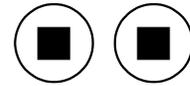

Outstanding Support and Round-the-Clock Assistance with my Hosted QuickBooks

I Love Ace Cloud Hosting! This product has made it possible for me to work and manage the financials for this company across the state. I have recommended it to several other companies, and they love it as well! Their customer support is always on top of everything! Best hosting product out there!!

Renee Weaver

Frequently Asked Questions (FAQs)

Is virtual desktop a subscription?

Yes, virtual desktop services are often available on the basis of a monthly subscription fee. But that is not all. Many providers also offer customized pricing plans that are suited to your business requirements. At Ace Cloud Hosting, we offer a nominal subscription fee of \$30 per user per month. We also come up with affordable custom pricing quotes that understand and respond to your business needs in real time. To help make up your mind, sign-up for a 7-day free trial with us today.

What is VDI cost?

Do you have to pay monthly for virtual desktop?

How can I save expenses with Hosted VDI services?

Is VDI expensive?

How much does a Hosted desktop cost?

How are cloud hosted desktops different from on-premises desktops?
