Features

Delivery Management & Route Optimisation

Bulk Order Import

Use our SolBox spreadsheet template or if you prefer, integrate your own spreadsheet. SolBox's open API allows you to send orders direct or enable our integration for a more seamless process day to day.

- Bulk Order Import
- Route Sequence Optimisation
- Load Constraints & Balancing
- Zone or Territory Optimisation
- Driver, Vehicle & Customer Timetables
- Dynamic Allocation

- Pre-Defined Routing
- Driver Mobile App
- 3rd Party Software Integrations
- Digital Proof of delivery
- Real-time Analytics & Reporting
- Automated Customer Notifications

Safety & Prestart Checks

Build Custom Safety Inspections

Build and customise inspection reports for drivers to complete from any mobile device, before, during and after their shifts. Live fail alerts and automatic emailed PDF reports, saved in the system forever your company will never be in breach of chain of responsibility (COR) again

- Build Custom Safety Inspections
- Mass Management
- Safety Plan & Checklists
- Safety Report Dashboard

- Service Checklist
- Service Reminders
- Service Plans
- Service Repairs

Service Checklist

Build service checklist items or templates per asset, vehicle or group which needs to be completed by internal or external repairers. Check list items will then appear on the service plans and reminders
