Addis Ababa Education Bureau

Challenge

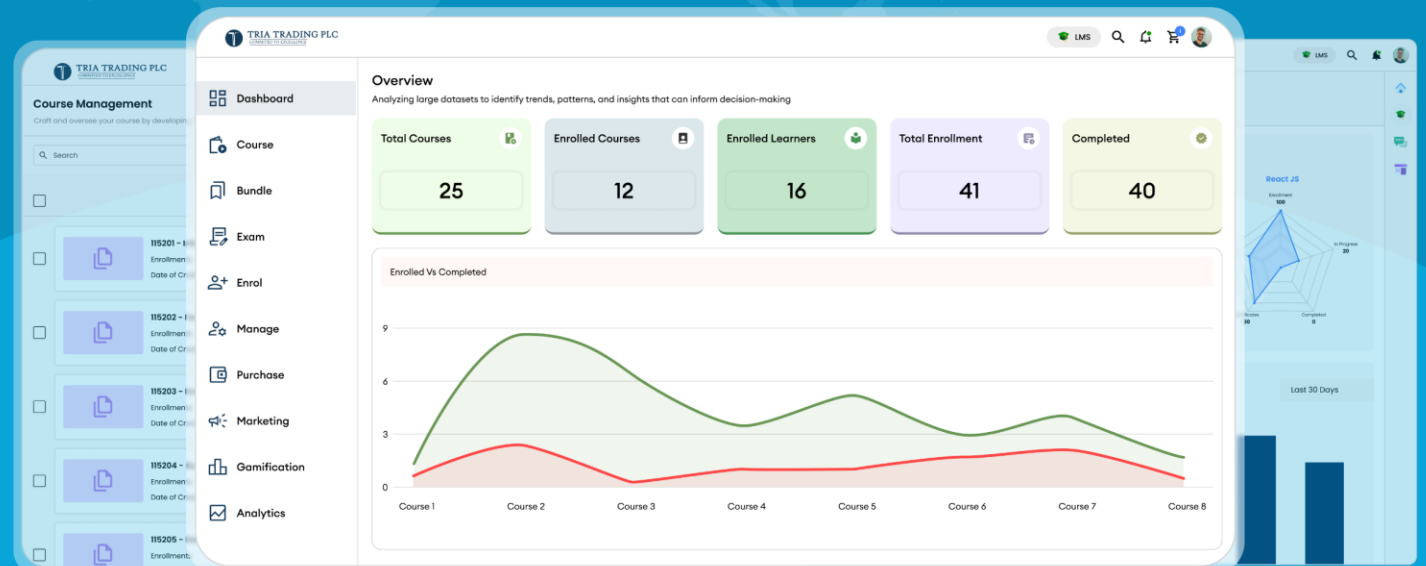

Managing hundreds of public schools manually limited visibility, efficiency, and data-driven educational decision-making.

Solution

Implemented a centralized digital learning and school management platform for real-time monitoring and administration.

Result

Improved operational efficiency, better learning oversight, and faster, data-driven decisions across public schools.

Addis Ababa Labor & Skills Bureau

Challenge

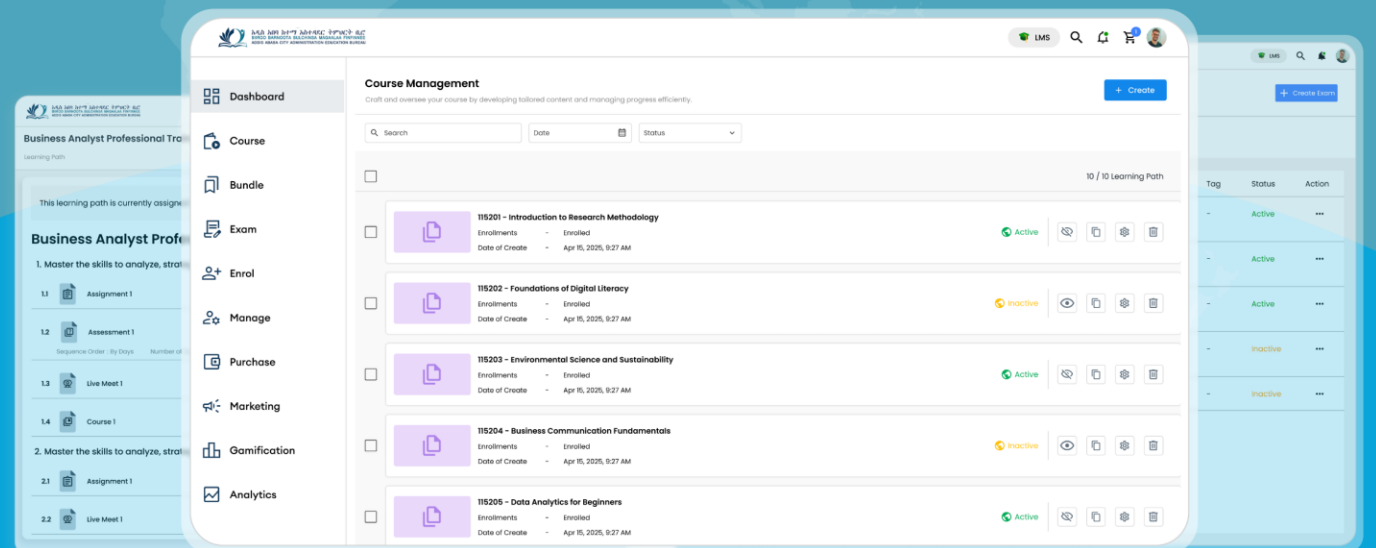

Lacked centralized academic control, digital learning, consistent assessment, and cross-campus performance tracking.

Solution

Deployed e-KHOOL LMS for unified campus administration, digital courses, live analytics, and collaboration tools.

Result

Standardized management, improved student engagement, streamlined operations, and real-time performance data across TVET colleges.

Ganpat University

Challenge

Managing academic operations manually hindered efficiency, engagement tracking, performance analytics, and communication.

Solution

Deployed e-KHOOL LMS to centralize academic management, analytics, and communication digitally.

Result

Boosted efficiency, increased student engagement, data insights, and smoother collaboration.

The screenshot displays the LMS dashboard for a user named Laurence. The top navigation bar includes the Ganpat University logo, user profile, and analytics. The main dashboard features a welcome message, user profile, and analytics. The dashboard is divided into four main sections: My Learning (21), Leaderboard (5), Badges (3), and Certificates (8). Below these sections, there are tabs for Courses, Bundles, Learning Path, Assessment, Assignment, and Live. A search bar is present, and a list of courses is displayed, including 'Fundamentals of Modern Banking Operations', 'Financial Risk Management for Professionals', 'Corporate Finance and Investment Strategies', and 'Advanced Banking Compliance and Regulation'. Each course card shows the number of enrollments and the status (Full Time or Expired).

Key Differentiators

Cloud, Scalable, Multi-tenant and AI-enabled Architecture

Highlights the unique capabilities, scale, security, integrations, and innovation that set our platform apart, delivering measurable impact across education ecosystems and corporate learning environments.

1 **100+ Functionalities**

Comprehensive modules covering administration, learning management, assessments, analytics, communication, compliance, and reporting in one platform.

2 **7M+ End Users**

Trusted by millions of learners, educators, administrators, and professionals globally, delivering consistent digital experiences

3 **25+ Integrations**

Seamlessly connects with ERP, HRMS, payment gateways, biometric systems, cloud services, and third-party educational platforms.

4 **30+ Patented Solution**

Innovative proprietary technologies protect core workflows, learning methodologies, analytics engines, and automation frameworks.

5 **300+ Clients**

Serving ministries, institutions, enterprises, and training organizations with proven deployments and measurable digital transformation outcomes.

6 **5+ Security Certifications**

Certified security framework ensuring data privacy, access control, compliance, encryption, and enterprise-grade infrastructure protection.
