- Taxes as applicable at the time of billing.
- Standard AMC shall apply only for 3 years from the installation, the renewal charges shall vary from the 3rd year based on the active price list.

Implementation Plan

PHASE	MODULE	SCHEDULE	LIVE DATA	
			EXISTING	ONE BOX
I	Installation	10 Days from the Order / Payment	Yes	No
II	Training	3 Days from Installation	Yes	No
III	Case Study	5 Days from Completion of Training	Yes	No
IV	Production Live	20 Days from completion of Case Study	Yes	Yes
V	Post Implementation	0-15 Days from Production	No	Yes

- PHASE I: Installation and License Activation - During this Phase, FIT- ERP Application will be Installed in your Main Server and Client Systems. A Detailed training chart will be prepared and issued to respective departments with complete schedule of training.
- PHASE II: During this Phase, Training shall be provided for all user forms of FIT-ERP as arrived during Phase I. This phase will ensure that all users have understood the flow of date entry and the outputs that can be taken from our ERP System.
- PHASE III: Case study (Trial Implementation) and documentation of minor changes if any required in FIT-ERP latest Version. During this Phase, few selective orders will be taken for trial and each user will enter their part of date in the system to complete the entire FIT-ERP flow. This phase will ensure that all users are completely prepared to go live with FIT- ERP system and also for the management to review the trial implementation process within your company.
- PHASE IV: During this Phase all users will initiate the implementation process in FIT- ERP. From the given cutoff date to the users, all new orders received on or after the cutoff date will be entered in the new FIT-ERP System Only. However those orders already registered in the existing software will continue their flow in the old system untill the same gets dispatched and closed in the older System. All new orders after the cutoff date will continue the flow in FIT - ERP dispatched through new software. In a period of 30 to 40 days all old order will get closed and the customer can stop using the old system except for some date review of old orders.
- PHASE V: All other software will get closed and the customer will use only FIT - ERP System henceforth for all their transactions and reporting.
