Why should you **buy CopVPN**?
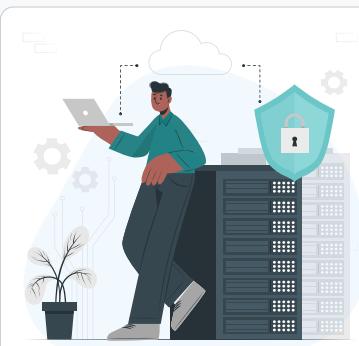

Privacy made simple

Advertisers and hackers can easily see your IP address, location, and browsing activity — unless you protect yourself with a VPN.

- Keep your identity private
- Protect against trackers
- Secure your personal data

Total online safety

Protect all your devices from cyberattacks, trackers, harmful ads, malware, and other online threats using a VPN.

- Block dangerous websites
- Browse safely on public Wi-Fi
- Safeguard your online banking
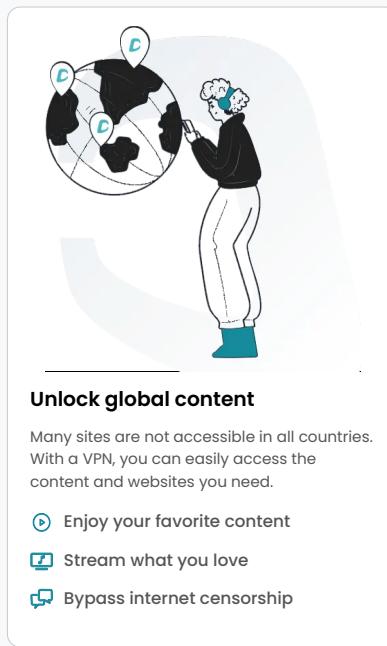

Unlock global content

Many sites are not accessible in all countries. With a VPN, you can easily access the content and websites you need.

- Enjoy your favorite content
- Stream what you love
- Bypass internet censorship
