How It Works?

1. Load money and use your wallet to spend:

Add money to any CashBook wallet whenever you need, and make payments instantly, scan QR codes, pay vendors, pay individuals, everything.

2. We sum up your wallet spends at month-end.

On the last day of each billing cycle, we calculate the total amount you've spent that month.

3. You receive one simple invoice (at month-end).

Pay just 1.5% of your total wallet spends, with a minimum cap of ₹99 per wallet/month .
(Postpaid billing)

Benefits

Issue wallets to staff members

Monitor business expenses

Set limits, minimize leakages

Safe and Secure

Testimonials

Don't just take our word for it

A wedding has a thousand moving parts. CashBook UPI lets our planners pay décor, makeup, venue and crew instantly, then share receipts with couples in real time. Less cash chasing, no spreadsheet chaos—more energy to craft those once-in-a-lifetime celebrations.

Pawan Gupta

Founder – The Wedding Company (TWC)

Driver advances, hotel stays and depot buys now flow through one-tap UPI. CashBook UPI streams live spend on every route and shrinks reconciliation from days to minutes. Our buses keep rolling, pilots stress less, and finance finally gets clean, real-time cost data.

Yagyarth Srivastava

HR Lead – Zingbus

Furniture projects used to drown in paper. Now our site teams scan a QR, pay carpenters and suppliers, and sync to ERP within seconds. CashBook UPI delivers faster payouts, spotless books, and happier clients who see transparent costs before the dust even settles.
