# Understanding ChartScout

## What's a Pattern Watcher?

### 1 Watcher Formula

1 Trading Pair + 1 Timeframe + 1 Pattern = 1 Watcher

### Example

BTC/USDT • 15m • Rising Wedge = 1 watcher

### Multiple Watchers

5 pairs × 2 patterns × 2 timeframes = 20 watchers

## Why Timeframes Matter

### 30 MIN+ (Free)

Monitor major trend formations and larger moves

### 15 MIN+ (Basic)

For swing traders catching more opportunities

### 5 MIN+ (Pro)

Built for active day traders seeking intraday patterns

### 1-3 MIN (Enterprise)

Professional scalpers with high-frequency trading
