

BlockPI.io Pricing Overview

This document provides an enhanced overview of BlockPI.io pricing structure and service tiers.

Plan	Monthly Price	Key Features
Free	\$0	Limited requests, public RPC access, basic support
Developer	~\$49-\$99	Higher rate limits, multi-chain access, API keys
Growth	~\$199-\$499	Higher throughput, priority routing, analytics
Enterprise	Custom	Dedicated nodes, SLA, custom infra, priority support

Key Pricing Characteristics

- Usage-based billing (RPC requests / compute units)
- Global infrastructure with low latency routing
- Auto-scaling based on demand
- Enterprise SLA up to 99.99% uptime
- Supports multiple blockchains and L2 networks

Note: Pricing tiers are indicative estimates based on typical Web3 infrastructure models. For exact pricing, refer to official BlockPI documentation or sales team.
