

Pricing Plans

Last Updated July 1st, 2026.

Available Until December 1st

Launch Pricing

Every HarperFlow plan includes the full GEO publishing system: opportunity discovery, researched articles, citations, rich formatting, CMS publishing, and content memory. The only difference is how many articles we publish for you each month.

One plan — you set the volume

–

10

+

articles / month

5 · \$62/mo

30 · \$297/mo

5

10

20

30

\$119/month

\$11.90 per article · **4% less per article than the 5-pack**

Published about every 3 days, hands-free.

Start with 10 articles / month

Renews at your amount until you change it. Upgrade, downgrade, or cancel anytime — extra credits available mid-month at your rate.

WHAT YOU'RE PAYING FOR

Every article ships with the full engine.

No feature tiers, no gates — a 5-article package gets the same machinery as a 30-article one.

- ✓ AI-search gap scanning
- ✓ 8–12 cited sources per article
- ✓ 16 article formats
- ✓ Author SEO cards & styled callouts
- ✓ JSON-LD schema
- ✓ Veto anything before it's live
- ✓ Topic cluster planning
- ✓ Source-to-snippet hooks
- ✓ Internal link creation
- ✓ FAQ blocks
- ✓ Written in your brand voice
- ✓ Run your blog on autopilot

Connect your site once — HarperFlow discovers, writes, cites, links, and publishes on schedule from then on.

AGENCIES & ENTERPRISE

Running content for many sites? Plans start at **\$1,020/month.**

- ✓ Custom article volume across all your client sites
- ✓ Volume rates as low as \$6.00 per article
- ✓ One consolidated monthly bill for every site
- ✓ Dedicated pipeline — bring your preferred AI model

Book a call with the founder

Arranged bespoke, 1-1 with HarperFlow's founder — 120 articles included at the entry tier.

Built on strong foundations

Stacked with features because we built HarperFlow to use on our own sites. If something is missing, it's already moving through the pipeline.

Opportunity Discovery

Finds high-intent topics your customers are already asking search engines, AI assistants, and competitors.

AI-Search Gap Scanning

Spots answer gaps where your site can become the source AI engines quote before competitors.

Topic Cluster Planning

Groups articles around connected themes, so your blog builds authority on specific topic clusters.

Content Calendar Automation

Turns approved opportunities into a publishing rhythm without another spreadsheet or editorial chase cycle.

Sixteen Article Formats

Matches each topic to the right format, from answer pages to comparisons, checklists, and deep dives.

Brand Voice Memory

Keeps articles aligned with your positioning, audience, tone, product rules, and content pillars every time.

Source-to-Snippet Hooks

Builds concise, source-backed passages designed to be lifted, quoted, and reused by AI answer engines.

Citation Architecture

Connects claims, sources, FAQs, and summaries into a cleaner trail for readers and search engines.

TL;DR Takeaways

Adds punchy article takeaways that make long-form content easier to scan, remember, and cite quickly.

Questions before you turn your blog into a growth engine?

Here are the answers to the things most businesses ask before using HarperFlow to publish researched, source-backed GEO articles on their Webflow site.

- What does HarperFlow actually do?+
- Is HarperFlow just another AI writing tool?+
- How do I know the articles are high quality?+
- What platforms does HarperFlow support?+
- Will HarperFlow publish without me knowing?+
