

Run your entire school on one connected platform.
Simplify operations, support teachers, and create a better learning
experience for every student.

The background of the slide is a blue globe with white grid lines. The text is centered and reads:

eSchool ERP

ALL-IN-ONE SCHOOL ERP, LMS
AND DIGITAL LEARNING
PLATFORM

Reimagining School Management in a Digital-First World

Infomuse Technologies builds thoughtful and reliable software for educational institutions. We focus on solving real operational challenges and creating systems that are easy to use, practical to implement, and built to scale as institutions grow.

eSchool ERP is a complete digital platform that brings together academics, administration, and communication into one connected system.

Instead of managing multiple tools and scattered data, schools get a single platform where everything works together. From admissions and fees to learning and performance tracking, every process becomes more structured, transparent, and easy to manage.

It is designed to reduce manual effort, improve coordination, and give schools better control over their day-to-day operations.

Core Platform Architecture

ERP

Manage admissions, fees, attendance, staff, and daily operations with ease

LMS

Support structured learning with assignments, assessments, and progress tracking

K12 Content

Access ready digital learning material that makes concepts easier to understand

Cloud-based Web Portal

Mobile Apps for all users

When systems work smoothly, teachers teach better, students learn better, and schools grow stronger.

Built for Everyone Who Makes a School Work

For Parents and Students

- Clear visibility into attendance, performance, and daily activities
- Easy access to assignments, study material, and results
- Real-time updates and communication from the school

Confidence, clarity, and involvement in learning

For Teachers

- Simple tools to manage classes, assignments, and assessments
- Better visibility into student performance
- Less time on manual work, more time for teaching

More control, less stress, better teaching experience

For Admin Teams

- Smooth handling of admissions, fees, and daily operations
- Centralized data and easy reporting
- Better coordination across departments

More control, less stress, better teaching experience

For The School Management

- Real-time insights into academics, finances, and operations
- Better decision making with clear data
- Ability to monitor and scale with confidence

Control, visibility, and growth readiness

eSchool ERP connects the entire school into one system where information flows smoothly, decisions become easier, and everyone works with better clarity and purpose.

Core School ERP Modules

All core operations are designed as simple, connected modules that work together seamlessly.

Admission Management

From enquiry to enrollment, fully structured.

Smoothly manage the complete admission journey without gaps or confusion

Student Information

Every student detail, organized in one place

Access academic, personal, and health records anytime with proper control

Attendance Management

Accurate tracking, zero manual errors

Mark and monitor attendance for students and staff with ease

Fee Management

Simple collections with full visibility

Track dues, collect fees, and manage payments with clarity

Examination & Results

Assess performance with confidence

Plan exams and generate detailed, meaningful report cards

Employee & Payroll

Manage your team without complexity

Handle staff records, attendance, and salary processing in one system

Timetable Management

Plan better, avoid conflicts

Create and manage class schedules with clarity and flexibility

Certificates & ID Cards

Create in minutes, not hours

Generate certificates and ID cards instantly with ready formats

Role-Based Access

Right access for the right people

Ensure data security while keeping the system easy to use

Reduce manual work. Improve accuracy. Stay in control.

Extended Capabilities

ERP | LMS | Operations

Beyond Basics. Built for Complete School Management

Learning Management System

Bring teaching and learning into one flow

Manage assignments, assessments, and student progress digitally

K12 Digital Content

Make learning more engaging and visual

Access ready-to-use content aligned with curriculum

Homework & Assignments

Track learning beyond the classroom

Assign, submit, and evaluate work with full visibility

Transport Management

Safe and organized school transport

Manage routes, vehicles, and student allocation efficiently

Vehicle Service Management

Keep every vehicle running reliably

Track fuel logs, servicing, and vehicle performance

Inventory Management

Never lose track of your resources

Manage stock, usage, and replenishment with ease

Library Management

A smarter way to manage knowledge

Track books, issues, returns, and availability in one place

Income & Expense Management

Stay in control of your finances

Track every transaction with clear reporting

Communication System

Reach everyone, instantly

Connect through SMS, WhatsApp, email, and notifications

Payment Gateway Integration

Make fee payments simple and fast

Enable secure online payments via portal and mobile app

Reports & Analytics

Turn data into decisions

Get real-time insights across academics and operations

Compliance Reporting

Be ready for every requirement

Connect through SMS, WhatsApp, email, and notifications

Designed to Grow with Your School

Mobile Apps

Stay connected at all times

- Dedicated apps for parents, students, teachers, and staff
- Real-time updates and communication
- Easy access to learning, attendance, and fees

Multi-School Capability

Manage one or many, with equal ease

- Central control across multiple branches
- Separate data with unified reporting
- Standardized processes across institutions

Why eSchool ERP

- One complete platform for all school needs
- Simple to use, quick to adopt
- Built for real school workflows
- Cloud-based and mobile-ready
- Scalable as your institution grows

A well-managed school creates a better environment for learning.

eSchool ERP helps you build that environment with clarity, structure, and confidence.

Let's simplify the way your school works.
