

PURCHASING PATHS

Deployment & Engagement Models

We structure commercial agreements based on deployment scope rather than artificial per-user seat tiers.

MODEL 01

PILOT

Controlled Evaluation

For security teams evaluating DentiSystems within a defined, non-disruptive network segment.

- ✓ Limited DentiGrid decoy node deployment
- ✓ Defined evaluation criteria and duration
- ✓ Direct engineering setup and support
- ✓ Review of captured telemetry & EDL export capability

Discuss a Pilot

MODEL 02

PRODUCTION

Standard Infrastructure Deployment

For organizations deploying DentiGrid threat deception as core security infrastructure.

- ✓ Scoped according to node count and subnets
- ✓ Automated EDL feeds for perimeter firewalls
- ✓ SIEM connectors (Splunk, Sentinel, Elastic)
- ✓ Standard operational support & telemetry dashboard

Request Pricing

MODEL 03

ENTERPRISE / MSSP

Multi-Site & Partner Deployment

For large multi-site enterprises and Managed Security Service Providers managing client subnets.

- ✓ Multi-tenant management portal
- ✓ Custom deployment & pipeline requirements
- ✓ Dedicated security engineering support
- ✓ Guaranteed operational response SLAs
