Price	$0 always	$8 / 30 days	$20 / 30 days	$49 / 30 days
Dynamic QR Codes stored at a time	5	100	500	1,500
Static QR Codes you can create	Unlimited	Unlimited	Unlimited	Unlimited
Static QR Codes stored at a time	1,000	1,000	1,000	5,000
Scans	Unlimited	Unlimited	Unlimited	Unlimited
All features included	Yes	Yes	Yes	Yes

Unlimited Redesignable Static QR Codes. Store up to 1,000 at a time (5,000 on Business) for reprinting and redesigning, and delete the ones you no longer need to change to make room for new ones. Static QR Codes never expire, even after you delete them.

Reusable Storage. Delete QR Codes you no longer need to free up space in your plan and keep creating new ones. Dynamic QR Codes remain active as long as they stay in your account.

Everything included in every plan

Enjoy all features, even on the Free Plan.

- Unlimited scans
- Organize your QR Codes by project
- Edit the content of Dynamic QR Codes
- Gradients, shapes, icons and your logo to customize your QR Code design
- Create custom page designs featuring your QR Code
- QR Code design templates for individual QR Codes or stickers
- Generate and edit QR Codes in bulk using Excel or CSV files
- Reusable Storage: delete QR Codes you no longer need to free up space and keep creating new ones
- Editable visual design
- Advanced analytics and reports for Dynamic QR Codes, with performance comparisons across QR Codes
- Automatically save and update QR Codes in Google Drive
- Download your QR Code in PNG or SVG format, in different sizes
- Design QR Code stickers, ready to print
- Print multiple copies of the same QR Code on a sticker sheet
- Apply a design template to an entire batch of QR Codes and redesign them whenever needed

Static vs. Dynamic QR Codes

	Static QR Code	Dynamic QR Code
Content	Fixed once created; the design can always be edited	Can be changed at any time, online, without a new QR code
Depends on CheapQRcode servers	No. The information lives in the code itself	Yes. Must be active in your account to work
Expires	Never, even after you delete it from your account	Works while active in your account; stops working if deleted
Scan statistics	—	Yes
Capacity	Unlimited to create; stored 1,000 at a time (5,000 on Business)	5 / 100 / 500 / 1,500 stored at a time, by plan

Downgrade your plan without losing your Dynamic QR Codes. Because Dynamic QR Codes rely on our servers to function, if you downgrade to a plan with lower storage capacity, any Dynamic QR Codes exceeding your new plan's limit will stop working. However, they will not be deleted and will remain safely stored in your QR Code Collection. You can upgrade your plan at any time to immediately reactivate all the QR Codes in your collection.
